

NOTICE OF PUBLIC INFORMATION CENTRE #2 PRELIMINARY DESIGN STUDY AND CLASS ENVIRONMENTAL ASSESSMENT HIGHWAY 60 IMPROVEMENTS (G.W.P. 5006-05-00)

THE STUDY

McCormick Rankin Corporation (MRC) has been retained by the **Ministry of Transportation (MTO)** to undertake a Preliminary Design Study and Class Environmental Assessment for improvements to Highway 60 in the following two sections:

- Section #1 Highway 60 / Highway 11 interchange to Muskoka Road 3.
- Section #2 Muskoka Road 23 to Highway 35.

The study limits of Highway 60 are located in the Town of Huntsville and the Township of Lake of Bays, within the District Municipality of Muskoka, as shown in the key plan.

THE PROCESS

This study is following the approved environmental planning process for Group "B" projects under the *Class Environmental Assessment (Class EA) for Provincial Transportation Facilities (2000)*. Upon completion of the study, a Transportation Environmental Study Report (TESR) will be completed and made available for a 30-day public review period. Notices will be posted and published at that time to explain the review process and identify the locations where the TESR is available for review.

External agency and public consultation is taking place throughout the study. Following the review of comments received at the first Public Information Centre (PIC #1) held on May 13, 2010, the project team has completed the analysis and evaluation of alternatives being considered and has identified the preferred alternative. PIC #2 has been scheduled to present the analysis and evaluation of the alternatives and the preliminary design of the preferred alternative that will address the future needs of Highway 60 within the study limits.

PUBLIC INFORMATION CENTRE #2

PIC #2 will be held as a drop-in style, open house format. Each session will include a brief, informal presentation.
